ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: CONNECTORS FOR ARTICULATED TRACKS FOR VEHICLES AND TRACKS AND TRACK COMPONENTS
INCLUDING SUCH CONNECTORS

(57) Abstract: An end connector (1) for an articulated vehicle track includes a body portion (3) with passageways (10a, 10b) for accommodating track pins (33) of adjacent track links. A bore (13a, 13b) passes through an intermediate part (11a, 11b) of the body portion perpendicular to the axes of the track pins and accommodates a securing bolt (17). A securing element (5) includes a first arm portion (19) which is retained on the body portion by the bolt and an angled second arm portion (21) having side edges (31a, 31b) which co-operate with grooves (35) in the track pins to retain the end connector on the track pins.
